**FIVE DAY PROGRAM** - Sydney or Melbourne

# Company Directors Course

This is a unique opportunity to learn and discuss with your peers the challenges of governance in large private and listed companies. Case studies, discussions and simulations in the course will all be tailored to your experience.

Participants will have the opportunity to participate in a Q&A session with a significant Australian director/chair at the course.

The course is tailored to experienced directors wishing to take their performance to the next level, as well as executives and managers who need to understand governance issues in depth.

The *Company Directors Course* is essential for the professional development of anyone who wants to further their directorship and governance skills and knowledge. Participants include executive and non-executive directors, CEOs and senior executives who report to boards.

The *Company Directors Course* gives a comprehensive grounding in the roles and duties of board directors. The course includes modules on effective decision-making, the legal aspects of directorship, financial literacy and strategy, as well as putting the lessons into practice.

Upon completion of this course you will be equipped to:

- Understand your role and the compliance issues for your board
- Lead beyond compliance to better understand the governance expectations and ethical considerations for businesses
- Help build a better board as well as improve and streamline board processes
- Focus your future strategic discussions with the knowledge and tools you need to monitor your organisation's financial performance and risk management
- Broaden your view of directorship and provide guidance to improve your personal performance and consequently the performance of your organisation
